Projects

Blog-Website (Full-stack) – [Github](#)

- Built the overall website **frontend** concept/layout, implemented responsive pages.
- Implemented the entire **backend** system to allow **CRUD** operations like registering, login, creating blogs, deleting blogs, etc. (**Python, Flask, SQLite, HTML, CSS**)
- Learned about deploying websites and successfully deployed on Heroku.

Portfolio Website (Front-end) – [Website](#)

- Built a portfolio website to practice my frontend web-development skills and to showcase my projects (**Javascript, Typescript, HTML, CSS**) and deployed on Github Pages.

Robotics Competition

- Helped in a team of three to write **C++** code for a robot to autonomously move around and pick up things with mechanical arms.
- Won multiple rounds against various universities in Illinois.

Sudoku game Solver

- Demonstrated knowledge and understanding of recursion and the backtracking algorithm by writing a script to solve a 9 by 9 sudoku board. (**Python**)

Awards & Scholarships

- Placed on the President's list and Honors list for Fall 2022 and Fall 2021 respectively.
- Awarded Motorola Solution Scholarship for the 2021-2022 academic year.
